

February 25th 2019

Dear Members,

I am pleased to share with you that we are now well into the first stage of renovations on the pool deck.

The male change room have been upgraded along with the sauna, and they look great! While we still have a few minor defects to address, we will begin renovations on the female change room next month, followed by the disabled toilets and new parent's room.

All of this should be wrapped up by the time we open for our 90th Bondi Icebergs Club winter swimming season on 5 May 2019.

Stage two, commencing in Winter, will entail the remodelling of the pool entry area which will allow better access for patrons in addition to an improved and safer viewing platform for the lifesavers that covers all areas of the pool. This work requires a development application approval, which has been lodged with Council.

Stage two also includes the expansion of the café area and relocation of the massage rooms.

Gym and Fitness Services

The Icebergs is committed to ensuring we provide the best services possible for our members, part of this strategy is to review our offerings and undertake an open tender process where existing services are up for renewal.

Late last year we appointed a third-party company to undertake an open tender for the rights to manage the Gym and associated fitness services.

The tender process was very competitive, resulting in the appointment of Ben Cush, a personal trainer at the previous gym for 16 years and respected Bondi Icebergs Club Swimmer.

Ben is currently renovating the space, which will reopen as Bondi Icebergs Gym at the start of March.

All pool deck fitness activities, including yoga, will now be managed by Ben – please contact him if you would like any further details.

We are excited about these changes, and once the renovations are complete, we believe we will have an unrivalled pool and fitness offering, with state-of-the-art facilities. Look forward to seeing you on pool deck.

Yours in swimming

Benn Dullard
