A student of the Australian Graduate School of Management, I have worked in the banking and finance industry for over 30 years predominantly involved in economics, derivatives trading & sales and asset management. During this time, I have also had the opportunity to gain experience in risk management, mainly exposed to counter-party, anti-money laundering, and compliance risk disciplines. Other skills I have gained include internal & external stakeholder management and team leadership in volunteer Community Teamwork projects aiding institutions such as Bear Cottage, the only children's hospice in NSW.

My other interests include sailing, which I participate in as a member of the Cruising Yacht Club of Australia, keeping me occupied between October & April.

Despite being born and raised locally, I only joined Icebergs as a Swimming Member in 2017. My immediate observation was the great sense of community that the club provides, irrespective of economic, social or other backgrounds. The inclusive nature of the club, from first-timers to long-termers is a great asset, and one which I would like to help contribute to, not just by attendance at swims, but also through active participation.

It is for this reason, that I would like to join the board, to assist where I can.
